## Frequently Asked Questions about the 2016 (payable 2017) Kane County Property Tax Bills

### **Q: Why did my tax bill go up?**

**A:** Your taxes may be higher than they were last year for any or all of four general reasons:

- The local governments (such as municipalities and schools) in your area may have approved a higher tax levy than last year.
- While most properties in the county have a higher value than last year, the rate of change can be different. If your property's value increased at a faster rate than the average in your area, your relative tax burden will be greater than it was last year. If your property's value increased at a slower rate than the average change in your area, your relative tax burden will be less than it was last year.
- You may not be receiving all of the homestead exemptions for which your property is eligible.
- Other properties in your area may qualify for one or more exemptions for which you are not eligible.

### **Q: Where does the property tax money go?**

**A:** The largest portion goes to the school districts; the remaining portions go to the other local governments in the County:

**Q: Does Kane County decide how much in property tax that the local governments (such as schools and municipalities) in my area can levy?**

**A:** No; each local government makes this decision independently. Kane County has no authority to issue any property tax levy but its own.

**Q: What change did Kane County make to its tax levy this year?**

**A:** The 2015 extended levy for Kane County government was \$53,891,025.85; in 2016, it was \$54,350,978.88, an increase of 0.85%, to account for additional services provided to the \$137 million in new property (an increase of 1.06%) being assessed for the first time. This is the first increase in Kane County’s extended levy since 2010.

***Q: If I think my assessment is incorrect, is it too late to file an assessment complaint?***

**A:** Generally, yes; by state law, complaints to the Board of Review must have been filed within 30 days after your township’s assessment roll is published in the newspaper. The only exception is if there is a discrepancy in the physical data about your property, such as the assessment being based on a 2,400-square-foot house when you actually have a 2,200-square-foot house. To compare your property’s physical attributes to the assessment records, contact your Township Assessor.

**Q: Where does the property tax money come from?**

**A:** It comes from all types of property, according to its proportional value of the total property in the County:

Source: Kane County Treasurer

**Q: How is my property's assessment determined?**

**A:** For most non-farm property, the Township Assessor estimates the fair cash value and then develops an assessed value based on 33.33% of that fair cash value of the property as of January 1 of the assessment year, based on the three prior years of sales. The Supervisor of Assessments then equalizes all assessments to provide for uniform valuations in the County. Information about farm assessments can be obtained from the County Assessment Office.

**Q: How does the Tax Cap law apply to Kane County?**

**A:** Kane County is under the *Property Tax Extension Limitation Law* which places a limitation on the total amount of property tax that can be levied by most local governments. Generally, the law limits the increase of a local government's tax levy by 5% or the rate or inflation (whichever is less) over the highest levy of the prior three years. *This law provides that a local government's property tax levy is independent of property values, and property taxes can rise or fall regardless of what happens to property values.* Also, it does not apply to:

- Increases due to newly constructed property;
- Bonded indebtedness of a local government;
- The Home Rule Communities of Aurora, Algonquin, Barrington Hills, Bartlett, Batavia, Carpentersville, East Dundee, Elgin, Hoffman Estates, St. Charles, and West Dundee; and
- Increases approved by the voters through referenda.

**Q: *What will happen if I don't pay my property taxes?***

**A:** Your taxes may be sold at the annual tax sale, which is held in October of each year. If your taxes are sold, you will retain the right to redeem your property for two and one-half years if it is your principal dwelling. Other property must be redeemed within two years. To redeem it, you will have to pay costs and interest in addition to any tax due. For more information, contact the County Clerk's Tax Redemption Department.

**Q: *What if I have other questions?***
